

Use Designer Edge Effects in PhotoDraw 2000 Version 2

[Help](#)

[Assistance](#) > [Office 2000](#) > [PhotoDraw 2000](#)

In Microsoft PhotoDraw™ 2000 Version 2, you can instantly create a frame-like border for your photo by applying a Designer Edge effect.

Apply a Designer Edge to a picture

1. Select the object you want to modify.
2. On the **Edge** menu, click **Designer Edges**.
3. In the workpane, click the type of gallery you want to view (**Artistic**, **Paper**, or **Traditional**).
4. To apply the Designer Edge to your picture, click its preview in the gallery.
5. To shrink or stretch the edge to perfectly fit your picture, click **Stretch to Fit**.
