

Celebration Fair
Checklist

Name _____

Put a check in the box when you complete the task

1. With your partner, choose a celebration to study
2. Complete the "Know" column on the KWL handout by listing all the facts you know about your celebration
3. Complete the "What" column on the KWL handout by listing questions you have about your celebration
4. Use the Internet to help you answer the questions on the Celebration Questions handout
5. Cite each website that you used to answer your questions on the back of the Celebration Questions handout
6. Create a flag of the country that your celebration originated in
7. Create a map of the country that your celebration originated in
8. Gather or make two more visuals to represent your celebration. (Examples- food, decorations, posters, etc)
9. Decide on a project that you and your partner will create on the computer. (Examples- brochure, newsletter, invitations, poster, slideshow, video, etc.)
10. Plan your project on a blank sheet of paper before going to the computer lab.
11. Finish project in lab by saving your project to our server folder and/or printing. See your teacher for help with this step.
12. Decorate your booth. Include your visuals and computer project.
13. Be ready to tell the class about your booth
14. Finish the KWL chart by listing 3 things you learned about your celebration in the "Learned" column
15. Compare 2 celebrations in your reflection journal.
