

Video Listening Guide
"Learning About Natural Resources"

Introduction

Natural resources are found _____.

_____ use the Earth's natural resources.

List some of the natural resources you see and hear in the video.

- 1.
 - 2.
 - 3.
 - 4.
 - 5.
-

3 Kinds of Resources

When a natural resource cannot be used up it is called _____.

List 3 examples of inexhaustible resources:

- 1.
- 2.
- 3.

When a natural resource can be used over and over again it is called

_____.

List 3 examples of renewable resources:

- 1.
- 2.
- 3.

Natural resources that cannot be made again in our lifetime are called

_____.

List 3 examples of nonrenewable resources:

- 1.
- 2.
- 3.

Inexhaustible Resources

List 2 ways to use air

- 1.
- 2.

List 2 ways to use the sun

- 1.
- 2.

List 2 ways to use water

- 1.
- 2.

What kind of resource is clean, fresh water? _____

Renewable Resources

List 2 ways to use fresh water

- 1.
- 2.

List 2 ways to use trees and plants

- 1.
- 2.

We must _____ or save trees.

List 2 ways to use soil

- 1.
- 2.

When soil is worn away it is called _____.

Nonrenewable Resources

List 2 ways to use rocks

- 1.
- 2.

List 2 ways to use the minerals

- 1.
- 2.

List 2 ways to use coal and natural gas

- 1.
- 2.

When harmful materials get into our natural resources and they are no longer healthy for living things they are _____.

Give one example of pollution

- 1.

The greatest cause of pollution is _____.

The three R's to conserve natural resources are _____,
_____, _____.

Give one example of each:

1. Recycle-
2. Reuse-
3. Reduce-
