

Bryan Fuqua – Coach
Paula Garner – Mentor
July 10, 2005

Summary

This lesson will cover problem solving strategies. The students will be taught problem solving strategies by the teacher; then they will use video streaming to reinforce the concept. The students will create a presentation of the learned problem solving strategies. These strategies will be added on to each week. When a new strategy is learned, it will be added to the presentation.

Data Gathered

Your questioning sequence was very well thought and planned. You did a great job of leading from one component of the lesson to the other.

You pointed out possible problems your mentee had not thought about.

Over all you did an excellent job.
