

SueAnn Simpson's Interview Review Results
By Janel Brawley (September 5, 2007)

In your interview with your mentee, you asked me to observe three different areas for you. The areas were:

- ☆ Questioning style – improved or not?
 - ☆ Make notes of body language/facial expressions – do they match coaching style
-
-

Below you will find my observations of your interview:

- a. **Questioning techniques – improved or not? Yes. Your questions came out very fluent and at appropriate times. You did not interrupt and made her feel as though she was “queen for the day” in you questioning techniques.**

2. **Make notes of body language/facial expressions – match coaching style? Yes. You seem much more relaxed and in control of the situation. You were a very active listener and this made the mentee feel right at ease.**

Great job on your interview!
